

## Post Card

A MONG the many interesting exhibits to be seen at the Electrical Show is the booth of Bateman-Garrison-Maddox Co. This is an almost complete show in itself. Here displayed is a complete wireless telephone system in operation, the Collins-Sanchez High Frequency Apparatus, an exhibition of wiring materials such as used by the Bateman-Garrison-Maddox Co. when installing electrical equipment, and luminous electric radiators operated and controlled by B.-G.-M. Relays and themostats. Here there are also a variety of electric fans, flat irons, telephones and all sorts of other electrical appliances.

If you expect to purchase electrical apparatus, have a private electric light plant installed or if you want some information on any electrical subject, write to the

BATEMAN-GARRISON-MADDOX CO. 615 SOUTH WRIGHT STREET CHAMPAIGN, ILL.
